Nobility RCM announces new division focused on dental billing solutions

SCOTTSDALE, Ariz. (March 8, 2022) – Nobility RCM, the leader in medical billing and revenue cycle management solutions, has established a new operating division in Washington focused on billing solutions designed specifically for the dental profession. This addition, which operates under the brand name Elevate Billing Solutions by Nobility, gives the company a coast-to-coast U.S. presence, from the Northwest to the Southeast with more than 10 operating sites nationwide.

Elevate Billing Solutions was founded in 2019 by dental industry professionals who recognized that billing activities in dental practices were hindering financial stability and growth and limiting time that should be dedicated to patient care. To further enhance services and performance for its clients, Elevate joined forces with Nobility RCM, the leader in revenue cycle management solutions for medium to large medical practices and healthcare organizations. With Nobility as its parent company, Elevate is now backed by the technological innovations and leading-edge resources of Nobility, to ensure current and future clients have direct access to the most advanced solutions proven to improve profitability.

"We're excited to develop new solutions to meet the growing RCM needs of the dental profession and to bring our services to markets from the left coast to the right," said Dr. Michael Fossum, CEO, Nobility RCM. "Our relationship with Elevate Billing Solutions supports our mission to consistently deliver performance-driven billing solutions centered on transparency and communication to all healthcare providers."

Nobility has established itself as a leading RCM and billing solutions provider by employing key performance indicators to deliver exceptional value to its rapidly growing clientele. By taking a laser-focused approach that emphasizes outcomes above all else, Nobility is able to sustainably measure and prove its performance to clients, setting itself apart from other RCM providers.
